IT'S ALL YOUR FAULT!

In my last letter I begged you cats in mags' city to print a phoney cover cause I was gettin clobbered by "friends" who had missed that issue. When I picked up the August issue of Drag, I found that you were still using the same clever, colorful, original cover on Drag. After consulting my lawyer, I have decided not to sue. As an alternative, I request that you send me the price of bandages and Bactine.

Jay Lyons
Stockton, California

Who's she?

DIGS FLATTIES

I think your magazine is the greatest. I read the letter from Paul Wellenday who said his 121½ cu. in. sports car has never been out run by a flathead. All that proves is that he hasn't drug very many flatheads. I think Clawson has lost his marbles. I own an overhead but I like flatheads alot.

Mickey McNary
Denton, Texas

... yeah, yeah, yeah!

FAN MAIL?

Whathe(censored for obvious reasons) thematterwith the artist on p.17 in the june issue of Drag.Hasn't he ever seen a rail in his life?First of all that solid front suspension is against all kinds of rules.What,PrayTell, is that ominous looking contraption between the injector scoop and the blower?We noticed a portion of the blower drive relocating itself throughout the entire story. Like, where's the required windshield? Also, where is the aluminized, reflective heat resistant and flame-proof driving suit now required(EFFECTIVE JUNE 1, when this issue was supposed to be printed)? And howabout those valve covers in the fourth column? A little strange, donchathink? And those tough ignition wires which go from the base of the mag to the valve covers. NOT ONLY THAT, but the roll bar would never pass inspection. Worst of all, whathe(censor)thematter with all those clowns who write in scoffing a hairy magazine like Drag?

True, Russ Manning did make a few mistakes, but then he is a good artist. Too bad I can't say the same thing for your typing!

THE EFF

I received the #1 issue of Drag Cartoons I requested and I understand you would like to know more about the EFF (Eastern Flatheads Forever). It is an outgrowth of the NAAFH, which we love so dear, and dedicated to just about the same thing—the preservation of the flathead. We have about 200 members throughout New York, New Jersey, and Canada. Our club car, which we run in the H/gas class, is a 55 Chev powered by a 53 Merc 292" flat with a 4. This car has won over 20 trophies. In addition, each and every member owns a flathead.

Our club projects have included raising over \$2,000 for the Community Chest by a door-to-door drive, a "have your car inspected plan" at a school parking lot, six of our cars appeared in a Memorial Day parade downtown, and we officiated at the local soap-box derby. We are an active, growing organization open to new members and increased activity. Our basic requirement is the car. We want no dented fenders, no broken glass, no rust, and all cars must be painted. In short, we want no grease-wagons, and we have none. We would very much appreciate your support and if it would be possible to promote the EFF in any way it would really be wonderful.

We want to wish you the best of luck with the Intruder and think positive. You can beat John Bradley!

Anyone interested in joining, East or not, can write to me at the address below and inclose all the information about your car.

LOOKIN' WITH A FINE TOOTH COMB

What's the matter with Temp? Has he flipped? I thought he was for the N.A.A.F.H. bit, or is his engine disguised as an overhead (barf!)? I hope it is, because he's my idol. Please tell me he's kidding, please, or I am going to cry.

I'm sorry to say you made a goof. On page sixteen, there is a dragster with four motors. When it hits a gopher hole it flies into a glass factory, only one engine flew out. What happened to the other ones? Did he eat them?

David Bontjes
Riverside, California

Er... ah... cough... er... hummmm?

WHERE'S VON DUTCH?

I've been looking through your mag and every once in a while I will see a sign that says, "Where's Von Dutch?" Who in the cotton pickin' world is Von Dutch?

Jim Minyard
Rio Dell, California

He's a M.R.R.F. (mentally retarded Rat Fink).

Did you hide Von Dutch from Cartoons?

John Lopatha
Augusta, Ga.

Maybe yes, maybe no:

GO-KARTS???

Man, that June issue is a scream! I read every bit and it really swings. I think your revival of flatheads is real zombies, but you need something else for your magazine. I'm talking about bringing back Go-Karts!!! Remember the great times we had rifling through the parking lots an' scaring the old ladies with the grocery carts? Hoboy! That was fun! Then the cops starting jumping on us and complaining that needed mufflers and should race at the kart tracks. Then the kart tracks closed. I had a real hot kart with a 4 cycle Reo Lawnmower engine that would really haul, and now look at it. It's upstairs in the garage doing nothing. Let's bring back karts! Let's have kart drags, kart hill climbs, kart everything!! Yah!

Jonathan Nichols
Afton, New York

You better watch out, old ladies.

GRAND PRIX TROPHY DASH WINNER

I was very pleased to receive your letter. My husband really got a kick out of it. I have enclosed a few pictures of my car. One was taken the first of last season, April of 1963 and the other was taken October 5, 1963 as I won the Grand Prix Trophy Dash. It was my fifth Trophy Dash win. The car faired the season pretty well, after replacing fenders three times and the right door and doing my best on the quarter panel on the right side. I do all the body work on the car and really enjoy it. I try to keep my car in the best shape possible, but it sure takes lots of fenders. Any mentioning of the Powder Puff Association would be very much appreciated.

Diane Porter
San Diego, California

Thanks for your letter, Diane. We'd like to hear about the activities of our other readers also.

GOLDWATER FOR FLATHEADS

Why not Barry for President? Since he is a conservative, wouldn't he naturally be in favor of the old and tried flathead? Remember his words, "We must and we shall return to proven ways—not because they are old but because they are true."

Dave Cook
Phoenix, Ariz.

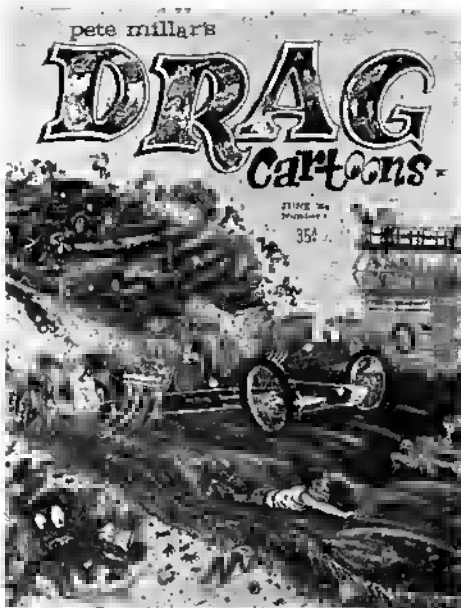

Good point you have there, tink. Maybe we can sign Barry up in the N.A.A.F.H.

WIFE STEALS PICTURE

I'm sorry I didn't write to you sooner to let you know I received the picture. I was down there last week-end and planned to see you, but I got side-tracked. I don't think I'll get to hang it in my office. My wife swiped it and hung it in the house. Stop in to see us if you get up this way. Thanks again.

Fuller
San Carlos, California

Note: We sent the original June cover to Kent Fuller (Kent Fuller chassis) as one of his cars was featured. Stelling and Hampshire, who, else?

WHERE'S YOUR SMARTS

In your September issue on page 24, you guys showed your smarts. Even a dumb one like me knows how to spell subpoena—see, not supoena, like you'll find that you wrote it. Your magazine is great except for this trivial yet avoidable goof.

Prof. Gordon
Morrison
Fink University

Perhaps we'd better send our staff to your worthy institution?

STOVEBOLTS FOREVER

I have been following the last few issues of Drag Cartoons very closely. This FINK, (alias Her Clawson) interests me. Like if he doesn't like drag racing, he can go back to where he came from. Man, you guys have got to have a heart — remember it's "Be Kind To Animals" week. But instead of giving him a subscription to Drag Cartoons, I say raise the price of your great mag to 40 cents so you can buy old Herbie a lifetime subscription to JACK and JILL. That's about his speed! Other than that your mag is terrific. How many readers have to complain before you bring back ARIN CEE? I hope you can bring him back.

David Shuck
Taft, California

P.S. Why not start a new club, Stovebolts Forever!!!

Stovebolts, what's that???

GIRLS, GIRLS, GIRLS . . .

Hi! Received your letter this morning. Thanks for all the information on Arin. I'll have to try and see if I can get my hands on some old *Rod and Custom* magazines and try to find him.

But now, I want to know who told ya? I mean who told ya I was going to send ya a picture? Yeah—I was! Really, just as soon as the pictures came and I received your answer, I was going to send one to ya. So, they arrived and I enclosed it. It's a picture of me in a go-kart. The kart belongs to a friend, but that's really me.

I purchased the August issue and I love your English accent in the first story, *Jack the Stripper*. You really did a bloody good job there, luv. There is also a picture of Pete Millar and the INTRUDER. Does this dragster really belong to Pete and does he really race it? Like where and how has he been doing? Will he race at all in *Bikini Beach Party*?

Gail Dziama
Parma, Ohio

The INTRUDER will be featured in the October issue. All will be answered there. No, the INTRUDER will not be raced in Bikini Beach Party, but it can be seen in the background. It's the only green one!

JUST TRY IT

I'd like to see George Brentwoods even try to tear down the great records the flatties have set before the speed-demo overheads came along. The flats were setting the pace before overheads were in the scene. As for your magazine, it was great as usual, in fact, so good my mom even liked it and she doesn't know the difference between a piston and a carb.

Phillip Trusty
Nashville, Tennessee

Well, don't worry about it. Even my dog likes Drag Cartoons!

LONGER STORIES?

You oughta have longer stories. In Cartoons they have pretty long stories and they put you to shame.

Bill Koss
Manhattan Beach,
California

Do you believe everything you read?

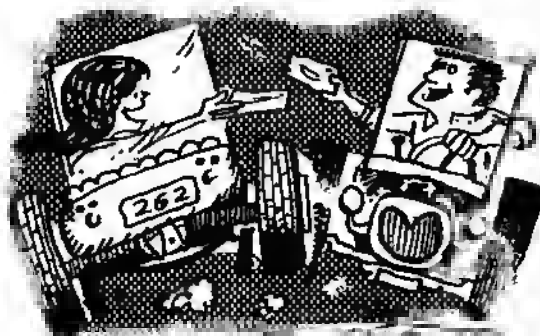

WHAT'S THE POINT?

Count me in with Bill Hurst and Herb Clawson and all the rest of the sports car enthusiasts. What's the point in drag racing anyhow? Just try to name me a couple a practical uses for dragsters. You wanna try to show me a dragster that could take the 24 hour course at Le Mans. You wanna try to show me a dragster that can be used for anything but tearing up a quarter mile of asphalt?

Keith Benefiel
Indianapolis, Indiana

What else can you do with a tennis racket except play tennis?

DRAG-MATES

Some of our readers have written to us asking for the names and addresses of other readers who would be interested in corresponding. If you would be interested in becoming a "drag-mate" rush a letter at once to Drag-Mate Box 67 Lomita, Calif. 90717. Enclose your picture, if you dare; we would like to print some of them, but because of the lack of space, all pictures will not appear.

Big Daddy, the Head Man, has done it again! Rat Fink monster shirts, Rat Fink decals, Rat Fink models. NOW! Rat Fink hats! The classically pointed crown is urged into the genuine monster hair felt by "Big Daddy" his own self. Pretending a monstrous rage Daddy grasps a heretofore futureless piece of felt and placing it atop his classically pointed head, pulls it down around his ears. The 30° included angle is geometrical perfection. 30° is cool, too! Check your thermometer. Big Daddy's little buddy, the Rat Fink, inspects them for flaws. He then stamps them with his mark of approval [provided they have enough flaws]. Get the point, cats? Top yourself off with a Big Daddy Rat Fink skull piece. The only cats who'll make it cooler will be those fortunate enough to have two heads so they can wear two of 'em. They're a gas to use as funnels for fueling up your dragster. Montana Goes Flathead!...

The NAAFH is finally receiving the recognition that has been long due. Congress has dedicated a huge portion of the state of Montana to the mighty Flathead. The Flathead and its cause shall live forever through PARKS, LAKES, FOREST, and TOWNS. But will the NAAFH stop here and be satisfied? No! We will take over the entire earth and then . . . Join the NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF FLATHEADS for we still have miles to go before we sleep. Send initiation fee of \$5.00 (yearly dues are \$2.50) and you'll receive: NAAFH T-shirt, Flathead Forever decal, NAAFH decal, Membership card, and the official Flathead Forever Newsletter. **THE FLATHEADS WILL CONQUER!**

MEMBERSHIP APPLICATION

Oh yes, I *DO* believe the **FLATHEADS** will rise again and emancipation is at hand. I further believe in the suppression of the (ugh) Overheads and will support the **NAAFH** movement to the end. Please consider my application and send me the weapons of recognition as soon as possible.
